Massachusetts Locksmiths Association

Robert's Rules of Order

What Is Parliamentary Procedure?

It is a set of rules for conduct at meetings that allows everyone to be heard and to make decisions without confusion.

Why is Parliamentary Procedure Important?

Because it's a time tested method of conducting business at meetings and public gatherings. It can be adapted to fit the needs of any organization like ours. Today, Robert's Rules of Order newly revised is the basic handbook of operation for most clubs, organizations and other groups. So it's important that everyone know these basic rules!

Now that the Association has gone digital with notifying our members, we can speed up the process of discussing new topics and voting on them. Before we would have to wait a month so it could be published in the newsletter, now members will be able to submit Motions, Discussion Topics, and Petitions to Address the Body before the Regular Meetings so discussion and a vote can take place at the meeting. Motions, Topics, and Petitions must be made no later than the day before a Regular Meeting. They will then be moved into an area on our agenda and discussed at which point. Below is our fixed order of business. Motions, Topics, and Petitions will be discussed when we reach the order or business in which it regards to.

- 1 – Call to Order
- 2 – Salute to Flag
- 3 – Reading of Executive Board Minutes
- 4 – Treasures
- 5 – Membership
- 6 – Hallmark
- 7 – Newsletter
- 8 – Program
- 9 – Promotional & Public Relations
- 10 – Licensure
- 11 – Archives & Database
- 12 – Mini-show & Yankee
- 13 – BBQ & Christmas Party
- 14 – Website
- 15 – Unfinished & Tabled Business
- 16 – Announcements
- 17 – Adjournment

New Business has been replaced by Motions, Discussion Topics, and Petitions to Address the Body. This will allow for smoother flow of meetings and for open discussion by all members.

Please go to the following Web Address for expanded information on speaking and voting as it related to Robert's Rules. We will be using these moving forward starting in February.

The lock would be easy enough to install. But the correct function in the exact finish? Nearly impossible to find. So Ted called Security Lock Distributors, who stocked the lock with the exact function he needed to get the job done as spec'd. And they shipped immediately. By the next afternoon, Ted had the correct lock installed in true Lock Star style.
